2026 Holiday Decor Collection

In addition to fresh cut trees (coming to stores in November), The Home Depot offers the season's most sought-after artificial Christmas trees with new innovation: the viral 9-foot Grand Duchess and 7.5-foot Grand Duchess. This year's collection adds Hubspace app integration, letting users customize holiday displays directly from a smartphone. Innovative technology like memory wire and Quick Set® makes it easier than ever to assemble and light your tree.

Holiday doers can light the way for Santa's sleigh with giant animatronics and statement-making pieces to anchor any display, including the 6.5 FT Animated LED App Controlled Santa and 8.5 FT Giant-Sized LED Towering Santa.

"This holiday season, we're helping our customers turn their biggest holiday ideas into reality, whether they're building a showstopping outdoor display or getting their home ready for hosting," said **Aubrey Horowitz, merchant of decorative holiday at The Home Depot.** "Our 2026 holiday collection brings together the innovation, quality and value our customers expect from The Home Depot, with products designed to make a big impact at every price point and for every kind of home."

Holiday decor rolls out in stores nationwide beginning the week of Oct. 5. Customers can shop the collection now at homedepot.com.
