THE HOME DEPOT ANNOUNCES FIRST QUARTER RESULTS

May 15, 2007

ATLANTA, May 15, 2007 /PRNewswire-FirstCall via COMTEX News Network/ -- The Home Depot(R), the world's largest home improvement retailer, today reported first quarter net earnings of \$1.0 billion, or \$0.53 per diluted share, compared with \$1.5 billion, or \$0.70 per diluted share, in the same period in fiscal 2006.

Sales for the first quarter totaled \$21.6 billion, a 0.6 percent increase from the first quarter of fiscal 2006. Total sales in the retail segment declined 4.3 percent to \$18.5 billion, and comparable store sales declined 7.6 percent. Total sales in the HD Supply segment grew by 46 percent to \$3.1 billion, reflecting sales from acquired businesses.

"The housing market continues to be a challenge, and erratic weather conditions across the United States negatively affected our spring selling season," said Frank Blake, chairman & CEO. "I want to thank our associates and our vendor partners for their hard work in this challenging selling environment."

Earlier this year the Company announced that it was conducting a review of strategic alternatives for its HD Supply segment, including a possible sale. That review is ongoing, and the Company will wait to comment on it until it is completed.

"We believe the home improvement market will remain soft throughout 2007," said Blake. "We plan to continue our reinvestment plans for the long-term health of the business, understanding that it will put short-term pressure on earnings."

At the beginning of the year, the Company said its earnings per share, on a 52-week basis, would decline 4-9% in fiscal 2007. Based on first quarter performance, the Company now believes it will be at the low end of its earnings per share guidance for the year.

The Home Depot will conduct a conference call today at 9 a.m. ET to discuss information included in this news release and related matters. The conference call will be available in its entirety through a webcast and replay at homedepot.com in the Investor Relations section.

At the end of the first quarter, the Company operated a total of 2,170 retail stores, which included 1,895 The Home Depot stores in the United States (including the Commonwealth of Puerto Rico and the territory of the U.S. Virgin Islands), 155 stores in Canada, 63 stores in Mexico, and 12 stores in China. The Company also operates 34 EXPO Design Center(R) locations, and 11 The Home Depot Landscape Supply(R) stores. Through its HD Supply(SM) businesses, The Home Depot is also one of the largest diversified wholesale distributors in the United States, with nearly 1,000 locations in the United States and Canada offering products and services for building, improving and maintaining homes, businesses and municipal infrastructures. The Company employs approximately 364,000 associates. The Home Depot's stock is traded on the New York Stock Exchange (NYSE: HD) and is included in the Dow Jones industrial average and Standard & Poor's 500 index. HDE
